16 June 1986

MEMORANDUM FOR: Chief, Communications Security Division, OC
Chief, Information Systems Security Division, OS

FROM: William F. Donnelly
Deputy Director for Administration

SUBJECT: NTISSC Meeting of 13 June 1986

25X1

1. I attended the NTISSC meeting on 13 June. At that meeting I received a DRAFT copy of the second annual NTISSC report. It is enclosed.

2. There was a big debate about prioritizing the 18 recommendations presented in the executive summary. They also are seeking fiscal data to include with the report--we don't have to contribute. There was agreement that recommendation number 15 should make reference to recent SIG(I) developments. There was also discussion about dropping recommendation number 5 and merging recommendation numbers 1 and 13.

3. Please review this document for any serious problems. If you have any suggestions as to priorities, get them back to me soonest. I am sure there will be more paperwork on this topic from the Executive Committee.

25X1

William F. Donnelly

Enclosure:
As stated
